**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

It will feel colder than of late, particularly near the summits, therefore extra clothing will be required including hats, gloves and waterproof outer layers. There could also be the odd patch of frost, most likely in the morning within sheltered spots on high ground and also within valleys initially.

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Sunday 18 Sep 2022

Weather: Any early mist and fog will clear quickly, leaving a dry and bright start to Sunday. Cloud will increase from the north during the morning, with a chance of a few scattered showers during the afternoon, mainly in the east of the Park. Showers easing by the evening and overnight, with further patches of mist and fog developing into the early hours. Continuing to feel chilly in a fresh northwesterly breeze.

Maximum wind: Northwesterly, 15-20mph with gusts up to 25mph.

Chance of cloud-free hill tops above 600m: 80%.

Low cloud and visibility: Poor visibility in any early mist and fog, which may cover some slopes and summits as it lifts and clears through the morning. Cloud will generally be above the summits throughout the day, but may cover tops above 600m at times, particularly in any showers. Otherwise good visibility expected.

Temperature: **Valleys:** Plus 7 Celsius, rising to plus 18 Celsius.
At 600m: Plus 3 Celsius, rising to plus 11 Celsius.
Freezing level: Above all summits.
